COURT ACTS IN FERRY MATTER

The Order Is Returnable To-morrow, by which Time an Agreement With the City May Have Been Made-Ferry President Confers With Acting Mayer.

Justice Scudder in the Supreme Court, Brooklyn, yesterday granted the applicaion of Senator Elsberg for a temporary njunction restraining the officials of the Brooklyn Ferry Company and the New York Terminal Company as well as members of the Board of Estimate from discontinuing the operations of the Williamsurg ferry lines on Friday as had been hreatened. The order is returnable tonorrow. The petitioners in the injunclen proceedings are ex-Mayor Frederick W. Wurster, William H. Force, James E. ichols and Walter S. Force.

The plea set up in behalf of the petitioners that according to the law all the way down from the Dongan charter in 1686, the Cornbury charter of 1708 and the Montgomerie charter of 1730, to the present ime, the city has had the power and charge over all the ferries; that the city and company are about to discontinue the lines and that this will be a great inconvenience and loss to the public and to the plaintiffs. It is maintained that for years the five ferries affected have carried millions of passengers and thousands of vehicles, that the city has derived large revenues from them and that they furnish the only adequate means and accommodations for the public convenience for crossing the river. It is also contended that the value fiver. It is also contended that the value of the real estate in Brooklyn and Manhattan adjacent to the terminals of these ferry lines has greatly increased by reason of the existence and operation of the ferries and that their discontinuance will decrease the value of the revenue of the city from taxation. It is charged that the stoppage of these lines will be an illegal act and might result in the forfeiture of the franchises.

While Senator Elsberg was getting the While Senator Elsberg was getting the injunction in the Supreme Court, J. J. Govin, president of the New York Terminal Company, called on acting Mayor McGowan in the City Hall in response to the suggestion of the executive which was published recently. The conference lasted thirty minutes, and the entire ferry situation was discussed superficially.

discussed superficially. "Just as we were about to plan for the continuation of the service," said the acting Mayor after the conference, "the acting Mayor after the conference, the injunction papers were served upon me, and that brought the conversation to a halt. I have turned the papers over to the Corporation Counsel, and I presume there will be a consultation this afternoon when he has had a chance to investigate the proceeding.

when he has had a chance to investigate the proceeding.

"President Govin appeared reasonable and willing to meet the city half way in any fair plan for the continuance of operation, temporarily at least. What the effect of the injunction will be of course I cannot say, but I am confident that the problem will be solved very soon, and without injuring the interests of the stockholders or the citizens."

Corporation Counsel Pendleton declared that he had no knowledge of the injunction proceeding until the papers were served upon him. He declined to talk about the matter.

#### BAD RAILS THE NOISE MAKERS. P. S. Board Tells Bingham It Is Doing All It Can to Get New Ones.

The Public Service Commission, replying yesterday to complaints forwarded by Police Commissioner Bingham that unnecessary noises were caused by the rail-roads of this city because of flat wheels, broken rails, the blowing of whistles and the clanging of bells, said that so far as the noises on the surface lines were concerned they were attributable almost entirely to defective rails. Early in the year the sur-'ace car companies were ordered to over-aul their rolling stock thoroughly and hese orders had been obeyed, the com-nission said. The board's letter continued: As for the trackage of the companies, how

erer, numerous defects early confronted the commission. With the progress of the impections it became apparent that the conditions of defective tracks prevail generally throughout the Borough of Manhattan, so that in order to furnish adequate relief a very general renewing of tracks would be necessary. Here, however, the protest was made by the receivers of the New York City Railway Company that they had not sufficient funds to undertake this work at the present time in a general way. Repair work which appeared to be particularly necessary in specific localities as the result of investigations has been done, but no general re-newing of tracks has been undertaken.

In order to determine more definitely thether the receivers of the New York City Railway Company are in a financial position to comply with any order for general track renewal an appraisal of all the properties of this company, both tangible and intangible, has been ordered by the commission and is now progressing. With the conclu-sion of this appraisal it will be known how for the commission may go in directing the relaying and replacing of tracks. Only then can general relief be afforded to complainants. Permission will be granted to-day to the Interborough company to begin the opera-tion of the extension of its Broadway sub-way line to the Van Cortlandt Park terminal

on August 1. The extension will be opened for traffic at 1 A. M. on that day. The line now ends at 230th street. The extension will carry the line to 242d street. There will be ntervening station at 238th street. an intervening station at 238th street.

A large delegation of residents of the lower West Side attended a public hearing vesterday and demanded that the New York Central should either be forced to remove its tracks on Eleventh avenue or that more flagmen be stationed along the route.

Frank Bennett, traffic inspector for the commission, said that one freight engine hauled practically all of the freight trains over the line and that there was no possibility of one train passing another. The

hility of one train passing another. hearing was adjourned.

#### NEWS PRINT PAPER AT AUCTION. Publishers Association Will Seek to Reach a Uniform Price Basis.

An auction sale of 100 tons of news print paper in carload lots has been announced for August 5 by John Norris, chairman of the committee on paper of the American Newspaper Publishers Association, in an effort to establish an open nfarket for paper and to reach a uniform basis for Publishers complained that the mills

runnsners complained that the mills insisted upon secret prices, that selling agents would not make any quotations for news print paper unless the name of the buyer, the place of shipment and the present contract were disclosed. The buyers said this method enabled the paper unlike the complete of the results of a paper unlike the complete of the results of a paper unlike the complete of the results of a paper unlike the complete of the results of a paper unlike the paper unlike ills to accomplish all the results of a pool. The auction sale, it was announced, is the beginning of periodical offerings. The ret auction will be at 12.80 on August 5 the exchange salesrooms, 14 and 16 Vesey treet, by Adrian H. Muller & Son, Andrew McCormack, auctionser.

#### Philadelphia Banks Buy Lake Superior Securities.

PHILADELPHIA, July 29 .- Stocks and bonds of the Lake Superior Corporation with a par value of nearly \$7,000,000 were bid in at auction to-day by eight Philadelphia banks and trust companies. The securities are held as collateral to secure notes of \$1,611,000 against the Canadian Improvement Company which matured June 1. The total purchase price was \$1,592,687. There was no opposition to the bids for the banks, which had been filed long be-forehand and were uniform.

# THE REAL ESTATE-MARKET

A \$3,000,000 MORTGAGE ON THE M'ADOO TERMINAL.

It Covers the Broadway Block Between 32d and 33d Streets and Was Made Out to the Mutual Life-Plans Filed for \$1,300,000 of New Construction Work.

The brokerage and auction branches of the market were extremely quiet yesterday. The building industry, however, made a very good showing. Plans were filed for new construction work which it was estimated will call for an investment of \$1,300,000. Among the buildings contemplated in Manhattan were a twelve story apartment house on Riverside Drive, a twenty-four story office building in Wall street and a six story office building in William street. The new construction projected in The Bronx comprised ten two family dwellings.

The significant feature of the budget was the number and importance of the items relating to building operations. The scarcity of sales, taken in connection with the comparatively large amount of constructive work, is undoubtedly a sign of improving conditions. It evidently means that the pressure to sell is about over and that capital is finding more profitable employment in financing new building operations than in trying to pick up bar gains in a liquidating market.

The bargains are becoming too infrequent, because owners in need of ready money can once more borrow freely at fair rates of interest. Meanwhile construction projects are furthered by the low cost of materials and the increased efficiency of labor, and work on a growing scale is being undertaken wherever renting conditions permit—chiefly in the elevator apartment house, mercantile and two family dwelling neighborhoods.

#### Building News.

Plans have been filed with Building Supertendent Murphy for a new twelve story freproof spartment house to be erected at the northeast corner of Riverside Drive and 113th street for the Winthrop Realty Company, of which Harry Matz is president. It is to be of brick and ornamental stone, with a frontage of 85.3 feet on the drive and 104.3 feet on the street and will contain thirty-nine suites of apartments. It is to cost \$300,-000. G. F. Pelham is the architect.

Plans have been filed for the new twenty-four story office building for the United States Realty Company on the irregular plot, 73.7 feet front, at 67 and 69 Wall street, and running through to 85 to 91 Beaver street, on which it will front 98.9 feet. It will adjoin the Sampson and Eagle buildings and will cost \$750,000, according to the estimate of the architects, Goldwin, Starrett & Van Vieck.

cost \$750,000, according to the estimate of the architects, Goldwin, Starrett & Van Vleck.

Augustus D. Shepard, as architect, filed the plans for the proposed six story office building to be erected by the Golden Hill Building Company, Henry S. Thompson, president, on the site of the battle of Golden Hill, the plot owned by the Reformed Dutch Church at 59 to 65 John street and 111 to 121 William street. The building, according to current report, is to be devoted to a syndicate of insurance interests and is to cost \$150,000.

The Manhattan plans for new buildings reported yesterday include also a two story bakery to be built for Lowenfeld & Prager as owners at Nos. 483 and 485 East Ninetieth street, at a cost of \$15,000; a three story two family apartment house with a garage on the ground floor and apartments for a janitor overhead and to be built at a cost of \$20,000 for C. G. Heye as owner (the design is rather unusual and is by C. E. Birge, architect) and a two story office and loft building, 33.955 feet, to be erected at a cost of \$4,000 for W. G. Lesster at No. 2869 Broadway.

The Bronx plans for new buildings include a row of nine three story brick dwellings for William C. Berger, a speculative investor, on the block on 198th street from Decatur to Marion avenue, to cost \$50,000, and two two story and attic dwellings on Hull avenue, north of Woodlawn road, for William R. Moore, to cost \$12,000.

#### EFFECT OF PANIC ON LABOR. More Trade Unionists Idle During the First Quarter of 1908 Than Since 1897.

ALBANY, July 29 .- State Labor Commissioner Williams gives statistics in the Labor Bulletin, issued to-day, which shows Labor Rulletin, issued to-day, which shows that for the first three months of 1908 there was a larger portion of the members of the trade unions unemployed continuously that any time since 1897. Out of 386,115 members of such unions there were 101,446 continuously idle, or 26.3 per cent. On the last working day of March the percentage of the unemployed had increased to 35.7 per cent.

per cent.
Slack trade accounted for nearly all this Slack trade accounted for nearly all this idleness, as labor disputes were but a fraction of former years. All of the important industries suffered, and in the building trades 56 per cent. of the union members were idle at the end of March.

The strength of organized labor decreased with the unfavorable conditions of the labor market, the decrease being \$8.210 members between the end of September and March.

and March.

Another effect of the financial crisis of last October was a tremendous change in the flow of foreign labor, hordes of aliens returning to the countries of the Old World, while the arrivals of alien laborers fell off for the quarter 71 per cent.. compared with the corresponding period of the previous vear.
